

KURRAGLEN

Farmhand Plus sheep & goat handler

The Farmhand Plus sheep and goat handler allows you to safely treat your animals with ease and safety. Sheep or goats are able to be restrained and rotated on to their side for treatment or can be restrained using the head bail for additional procedures.

The handler enables procedures to be performed such as : hoof trimming, tagging, vaccinating, drenching, mouthing, etc.

Features:

- Batwing entry gate
- Very quiet head bail locking system with infinite locking positions
- Seven stainless steel rose joints (rod end bearings) in the head bail for smooth operation
- Easy to use with minimal effort
- Convenient working height
- Two independent restraining levers for neck and flank
- Laser cut and zinc plated ratchet parts

870 Spring Creek Road, Gulgong, NSW, 2852
